

HOOK3™

Combat Survival Radio (CSR)

A legacy of helping save the lives of military personnel isolated or in harm's way

OVER
30
YEARS

Over **38,000** CSAR radios delivered to **39** different countries since **2001**

General Dynamics' CSAR radios are currently used by:

- All U.S. military branches
- NATO Coalition partners
- 8 APAC nations

Immersible to **50** feet for **15** minutes or to **3** feet for **24** hours

32 channels enables faster **GPS** acquisition time

COMPATIBLE with all HOOK2 products, including the AN/PRC-112G Transceiver, Quickdraw2 Interrogator and SATCOM Base Station

BETTER performance in densely vegetated areas or near structures

Supports **MULTIPLE** Global Navigation Satellite Systems (**GNSS**)

Auto activation when **G-FORCE** and **SALT WATER** is detected

Operational in extreme temperatures: **-40°C** to **+55°C**

HOOK3 **HOOK2**

30% smaller and **40%** lighter than the previous radio

GPS SAASM Approved **CERTIFIED**
M-Code Upgradeable
Cospas-SARSAT TAC 723 Approved
