# Survitec ARMOURED LIFE PRESERVER

FOR COMBAT HELICOPTER |

# FULLY MODULAR AIRCREW PROTECTIVE SYSTEM

The Armoured Life Preserver is a load carriage and protection (LCP) system designed for use on rotary wing aircraft in warm climates including jungle, rangeland and desert environments. The Combat Helicopter LCP consists of a customisable waistcoat that facilitates bespoke pocket configuration to suit individual preference or operating requirements. This includes mission critical equipment such as Short-Term Air Supply System (STASS), weapons, ammunition, survival aids and beacons. In addition, the Armoured Life Preserver LCP can accommodate front/rear soft and hard armour and an optional slim. low profile inflatable stole with multiple buoyancy variants. The Armoured Life Preserver LCP has been designed with a strong focus on thermal comfort. ergonomic protection, intelligent flotation and true modularity to ensure optimum safety, survival and combat performance for front and rear aircrew.
